Chris Harrington (1969-2021 RIP) was my client/friend from Warwick RI since 2007. I helped him get hired at least twice as a CPRW and then land new clients as a Self-Employed .Net & Java Developer (Copywriting). Later we both moved to Texas and kept wearing our NE Patriots hats, shirts and jackets proudly all over North Texas/DFW! 😊 Yes, I still enjoy the Dallas Cowboys.

Web Design Services

Great website design has many pieces to the puzzle: project management, visual design, programming, quality assurance, etc. They are all very important. After the project is complete, then you need to make sure that your client and social media objectives are met. I take just the right pieces of the project to do a great job - on time, on budget, and on par with what you want and expect.

<p>SEO</p>  <p>SEO (Search Engine Optimization) and SEM (Search Engine Advertising) are key components to making sure your website has a great ROI. (Return on Investment). Don't let your website become (obsolete) at all! The position you want to take, you can also have about who will be searching for you in the future.</p>	<p>Social Media Marketing</p>  <p>You may not have a Facebook, LinkedIn, etc. account, but your prospective clients and customers do. Get yourself that e they have issues of information of the web. You don't have to have a presence on every social network, but it's a good idea when you are involved your budget to allocate success. Check out the article on my social media marketing strategy.</p>	<p>Mobile Development</p>  <p>In 2017, and just about everywhere else, the web is on their phone, tablet, or other mobile device. Are you happy with how your site looks on a mobile device? How do things you website so that it is mobile friendly - to your eyes and to the search engines like Google, Bing, and others.</p>
<p>Front End Programming</p>  <p>Front end website design is the part of your website that the public sees - the page layout, colors, fonts, text & text, etc. I use the latest technology to deliver your site quickly and elegantly from Backlog, HTML5, CSS3, formatted graphics, and more.</p>	<p>Back End Programming</p>  <p>Back end website programming is the part that the public does not see - the database, connections, the programming that pulls content from various API feeds, a Content Management System that allows you to manage your website's content, etc. My team like requires a back end, so when it comes to code everything about developing the back.</p>	<p>E-commerce</p>  <p>Most e-commerce websites use an "out of the box" solution to make their website function properly. I can help you decide if you need a ready-made website for your business or an actually building a website around a software solution. I can help you create your first online business.</p>

As a busy High-Performance Copywriter, I'm always recommending Chris Harrington as a superb full-stack .Net Web Developer, Technical Project Manager and Web Designer. That's right, he is multitalented and dedicated to providing superior customer service to small, medium and large businesses nationwide. Take a peek at what a beautiful job he did for John Montecalvo at Spectrum401.com. My clients are consistently thrilled with his results since 2009. You will be very glad you hired him too. We are all just eternal spiritual souls made of light having a temporary human experience, so physical professional networking over lunch or coffee is no longer required. Do you really want to experience God's limitless abundance and favor? Do not conform to this world! Set a written goal to Pay it Forward/bless at least one individual per week for the next year (LinkedIn is a great vehicle for this), turn on KLOVE Christian Music Radio at work for divine inspiration, and execute on your Pay it Forward/Blessing Others Plan in faith. Supernatural blessings are sure to come your way because we are all children of the most-merciful, most-loving, most-powerful, most-high, almighty God.

Always be thinking about how you can help/bless others today. Then execute on those ideas. Your generosity will come back to you tenfold over time or someone you help will come back to give you a hand up just when you need it most.

 PS people are really impressed with my resume according to the feedback that I have been receiving recently.

Awesome **That's awesome** **That's great to hear**

The power of social media marketing + quality referrals to hiring executives is absolutely incredible when you have a great resume & LinkedIn professional profile.

Wonderful, 8v) Rodney this is such terrific news of course. I'm sure you will ace all your interviews after the way I grilled you like a police detective. LoL! Let me know about the good news when you are officially hired. Good luck and God bless you Rodney. 😊 Darrell DiZoglio, Executive Resume Writer & CPRW at RighteousResumes.com **RighteousResumes.com Delivers Real Results!**

“Come follow me...” Jesus said. “I will make you fishers of men...” Matthew 4:19. Amen! Thank you Jesus.

I also own/operate RighteousResumes.com and I am the sole sponsor, Head Writer & Editor and Chief Marketing Officer for HowToFindWorkNow.org. Over five million job searchers have been assisted by HowToFindWorkNow.org since Jan. 2012.

So, believe me when I say, “I am a Christian Soldier in the war on poverty, unemployment, and despair.” Feel free to share the HowToFindWorkNow.org Infographic below on your favorite social media website.

HowToFindWorkNow's #1 mission is to help all unemployed, underemployed and underpaid professionals with FREE expert assistance, tips, strategies and job search best practices (est. 01/2012).

Yes, You Can!

Millions of professionals have been laid off in 2022-2023 during this recession! This is after their savings accounts were drained dry during the 2020-2021 Coronavirus Pandemic & Lockdowns.

Yes, You Will!

HowToFindWorkNow.org has helped over 4.5 million job searchers since January 2012. So believe me, we can help you too with expert advice and "instant employment ideas."

HowToFindWorkNow.org will help you. Further, for many better jobs/careers, Most Admired Employers, and leadership/executive careers, there is nationwide competition vs. only local competition previously because people can work remotely or no longer hesitate to relocate for better paying jobs.

He replied, "Because you have so little faith, truly I tell you, if you have faith as small as a mustard seed, you can say to this mountain, move from here to there and it will move. Nothing will be impossible for you." Matthew 17:20, KJB
